In 1995, the Securities and Exchange Commission of Bangladesh joined the International Organization of Securities Commissions (IOSCO), the apex global body of capital market regulators. IOSCO plays the key role in maintaining cooperation, exchange of information, mutual assistance among the Capital Market Regulatory Authorities through out the world. At different times Bangladesh SEC participated in various programs of IOSCO, including Emerging Market Committee (EMC) Meeting and Asia Pacific Regional Committee (APRC) Meeting. Besides, Bangladesh SEC is active by taking part in responding to the queries of IOSCO or any other member of IOSCO in respect of the matters relating to the securities rules and regulations, compliance, enforcement etc.

IOSCO has set a goal in 2005 to have its eligible members to sign onto or committed to sign the Multilateral Memorandum of Understanding (MMoU) concerning consultation, cooperation and exchange of information within January 2010. After exchange of a series of correspondence between IOSCO and SEC Bangladesh regarding the relevant issues pertaining to MMoU, Bangladesh SEC has recently been invited by IOSCO to be listed in Appendix B along with other 11 member countries. SEC Bangladesh needs certain amendment in the Securities and Exchange Ordinance, 1969 to become eligible for Appendix A, i.e. to be a full signatory of IOSCO MMoU. SEC Bangladesh has also committed to IOSCO to be a full signatory of IOSCO MMoU after making required amendment in the said Ordinance, 1969, which is under consideration of the Government.
